

Focusing on 10 SDGs

Contributing to 10 SDGs requires minimising ROCKWOOL's operational footprint and maximising the positive impact of our products. We will measure progress against selected targets within each SDG either through the Group's Sustainability Goals or through the positive impact of our products where feasible. See page 32 for our sustainability goals progress.

- Positive impact on society through use of our products
- Reduction in operational impacts
- SDG target selected by ROCKWOOL
- Sustainable Development Goal selected by ROCKWOOL

<p>More effective food production systems through sustainable, soilless, Precision Growing solutions.</p> <p>Sustainable food production systems</p>  <p>Zero Hunger</p>	<p>Positive health & economic impact of acoustically sound buildings and reduced noise and vibration from cars and trains.</p> <p>Reduce deaths/illnesses from hazardous chemicals, air, water and soil pollution.</p>  <p>Good Health and Well-being</p>	<p>More efficient water-use in horticulture through sustainable, soilless, Precision Growing solutions.</p> <p>Increase water efficiency in factories.</p> <p>Increase water-use efficiency.</p>  <p>Clean Water and Sanitation</p>	<p>More energy efficient buildings and industry through insulation.</p> <p>Increase energy efficiency in own buildings.</p> <p>Double the global rate of improvement in energy efficiency.</p>  <p>Affordable and Clean Energy</p>	<p>Zero fatalities and reduction in Lost Time Incidents.</p> <p>Protect labour rights and promote safe and secure working environments.</p>  <p>Decent Work and Economic Growth</p>
<p>More durable and resilient infrastructure through fire resilient insulation and more.</p> <p>Develop sustainable and resilient infrastructure.</p>  <p>Industry, Innovation and Infrastructure</p>	<p>More safe and affordable housing and thereby less energy poverty through energy efficient insulation solutions.</p> <p>Access to safe and affordable housing.</p>  <p>Sustainable Cities and Communities</p>	<p>Increase the number of countries where we offer take back services.</p> <p>Reduce landfill waste from production.</p> <p>Substantially reduce waste generation.</p>  <p>Responsible Consumption and Production</p>	<p>More carbon efficient buildings and industry through insulation.</p> <p>Reduce CO₂ emissions in factories.</p> <p>Strengthen resilience and adaptive capacity.</p>  <p>Climate Action</p>	<p>Effective collaboration within our key business areas across sectors and geographies.</p> <p>Encourage and promote effective public, public-private and civil society partnerships.</p>  <p>Partnerships for the Goals</p>
